Profile

Experienced programmer and graduate game design student from Staffordshire university. Passionate about game design and programming, having participated in multiple games jams to hone my skills. I have strong problem solving skills, a strong work ethic, and I work well in a team.

Experience

Donkey Walker

2021 - 2023 | Parkers Donkey World

Helping prepare donkeys for work on Great Yarmouth beach and customer service. The job required handling cash, health and safety, and teamwork. I was also a team leader responsible for the juniors at the work place.

Student Demonstrator

2024 - 2024 | Unitemps

Teaching assistant. The job required guiding students through their foundation year at university and helping solve technical design and programming problems. I also helped the lecturers with any tasks that needed doing.

Mail Sorter

2024 - 2024 | Royal Mail

Sorting mail in a warehouse.

Self-Employed QA / Product Testing

2025 - Present | Self-Employed

Self-employed quality assurance and product testing for East Point Global. The job requires me to methodically test products and write up the results with a conclusion.

Education

2021

Level 4 Diploma in Work Principles and Practice of Games Design and Production

East Norfolk Sixth Form College

2024

BSC (H) Computer Gameplay Design and Production

Staffordshire University
